

BUSINESS-LED APPRENTICESHIPS

CareerWise creates opportunities for youth and businesses across Colorado by developing and supporting an innovative, sustainable youth apprenticeship program in advanced manufacturing, business operations, financial services and information technology.

GROW YOUR TALENT

CareerWise Colorado puts businesses in the driver's seat when it comes to designing and shaping youth apprenticeships. As students learn on the job through meaningful work, their classroom experience will be designed to enhance the experience, resulting in talented, well-trained members of the workforce. CareerWise will support your recruitment, mentoring and retention efforts every step of the way to ensure students contribute meaningfully in the workplace.

"By hiring apprentices, we can continue to fill our workforce with talented employees who will bring the enthusiasm and innovation required for Pinnacol to thrive." Phil Kalin, President and CEO of Pinnacol Assurance
